What were the strong points of the session?

- Demonstration of partnership with schools. Very important message about long-term social investment.
- Volunteer program information. John and Craig did a nice presentation. Cerro Grande overview.
- I enjoyed seeing what the school 6th graders have been doing. It is a wonderful program with very dedicated teachers. It was also valuable to learn about the Volunteer Task Force. What dedicated people!
- The volunteers presentation. Getting a change to finally see Los Alamos.

- Good field trip. Great to hear from the kids and the rest. Very interesting to listen to John and his experience in 2000.
- The driving tour was very helpful.
- I enjoyed the kids talking about the trail. John and Craig's presentation was great. They love what they do.
- Being in the resource!
- Candid conversations between Clark and Segar regarding air quality issues; school presentation of staff and at burn site by Clark.
- Actually going in the field and seeing the results of the Cerro Grande Fire was very valuable. Great coordination with VIP task course, the school and the staff (Jim & Dean) at Bandelier National Monument.
- Enthusiastic committed individuals can make a huge difference in cultivating stewardship attitudes and understanding from the 6th grade on, on a grassroots level.
- Kids were enthusiastic. John Hogan and Craig Martin were amazing!!!
- Interaction, looking around – tour – despite snow, good learning experience.

What were the weak points of the session and how would you change them for the better?

- I would have liked to interact with kids more.
- The session with the kids seemed a little unorganized.
- The weather could have been better. Oh, but we have no control.
- Kids kept coming in and leaving with GPS activity. No interaction with kids.

Other comments:

- Would have liked more examples of how they handled the media.
- I am glad we went to the site of the fire start! Thanks.
- Glad we went on field trip!!!
